

Solution

A human-centred interview

that answers these two, main questions about the job seeker

Can this job seeker's desired career *significantly benefit* from a coding course?

Can this job seeker *succeed* in the coding courses available on the market?

~~100000 €~~

100*€/test

~~380 hours~~

1 hour/test

Money is saved by the job centre

Time & energy are saved by the job seeker

Coding teachers get a better experience

Coding schools achieve a higher success rate

Encourage the market to address the need for a pre-coding course for those needing it
